Dear Mr. Maldoven,

Before working with Secure Image, I reviewed the photo ID card products of many other companies. I must tell you that the quality of your product is second to none!

In our business, we handle and test hazardous materials. Security in the environmental testing laboratory field is of the utmost importance; it was imperative to acquire ID cards from a reputable company with a product that could not be easily reproduced. Your product exceeded all of our objectives at a very competitive price!

Safety is another important factor for my organization. Our field services staff is often in close proximity to heavy equipment and machinery. Your recommendation for "re-attachable breakaway lanyards" allows our staff to wear their badges on site while conforming to existing safety regulations.

At first we were concerned about working with a company that was not local to our facility. But because you were so attentive to our needs and able to communicate electronically, it made it seem like your production facility was in our hometown. We certainly were pleased with the speed in which we received your finished product.

Our firm has recently purchased another environmental testing laboratory and will be in need of additional badges. I look forward to working with you in the near future.

Respectfully,

Denise M. Crison  
Quality Assurance Manager  
American Analytical Laboratories, Inc.

ID Man specializes in the design and production of customized photo identity cards for children, companies, and organizations on a nationwide basis.
